R 1250 GS (K50/11) and R 1250 GS Adventure (K51/11) Accessory Overview

Overview: The range of BMW Motorrad accessories for the R 1250 GS and R 1250 GS A offers a wide selection of customization options, to satisfy every desire. The options available start with HP parts and run through storage options as well as a number of design components to versatile ergonomics and safety features. Many familiar and tried-and-tested products have been continued from the predecessor models and, once again, the overall range of equipment has been significantly expanded.

- In addition to the Vario luggage system, the alternative of the aluminum luggage system (silver or black) each with optional inner pockets – provides generous storage space. The large topcase offers space for two helmets (depending on size of helmet). Additional luggage can be packed into the familiar large or small tank bag, as well as in the luggage rack bag or the passenger seat bag.
- Personal comfort needs can be met by various windshield and motorcycle seat variants. Further adjustment options and additional comfort are offered by familiar products such as adjustable footbrake and gearshift levers, Enduro footrests or adjustable rider's footrests in black.
- The extension to the front wheel cover remains unchanged in the range of accessories.
- More active safety is ensured by familiar products such as powerful LED auxiliary headlights, frame guards, radiator guard, hand guards, cylinder-head cover guards, engine protection bars, Enduro aluminum engine guard and for the off-road advocate, the headlight guard.
- The Navigator VI is an attractive navigation system that can be conveniently operated with the motorcycle's Multi-Controller.

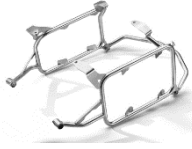

- The anti-theft alarm system or the brake disc lock with anti-theft alarm system are effective in preventing vehicle theft.
- The wide range of accessories is completed by well-known products that can be used in all models such as the safety plug for the oil filler neck, vehicle All weather cover, tire pressure travel pack, large or small first-aid kit, BMW Motorrad battery charger, various care products and the appropriate original BMW Motorrad Chemicals.

Parts Information: Please see the attached list on the following pages for detailed parts information. **Note:** Prices listed are M.S.R.P. and may be subject to change. Please contact us for more information
